

Business efficiency in vivid colour

Introducing Brother's new
Professional Colour Laser Range

Printing Solutions to Boost Your Business

At Brother, we want to be a true technology partner for your business. And we understand that for a print infrastructure to be a success, it has to offer you flexibility, reliability and affordability, on top of good-quality printing.

Designed to meet the needs of high-volume users, our new colour laser range lets you print with confidence, offering you speedy print and scan times and lower costs thanks to ultra high-yield toners. Add to that enhanced security, intelligent mobile connectivity and expandable paper trays, and you have a printer that satisfies even the toughest demands in the office.

Delivering Reliability and Efficiency

Brother's new business colour laser range has been designed for the needs of businesses. Built with robust materials to withstand the most challenging office environments, our new range is the perfect partner for your business.

Enhance document scanning with a **Dual CIS Automatic Feeder** that holds up to **80 sheets***, offering you a quick and simple way to scan directly to your preferred medium.

Protect What Matters to Your Business

The advanced security capabilities of the colour laser range ensure you are always in full control of your print infrastructure. You can improve data protection by restricting machine access with network user authentication and secure function lock, which allows you to password-protect certain device functions. Plus, the NFC reader** can be used to integrate with secure pull printing, enabling users to release their print job from any chosen device by swiping an ID card or entering a PIN.

Oversee and control your print infrastructure remotely with our **BRAdmin Professional Software** - from managing printing costs with print quotas for each user to instant notifications of any printer downtime for speedy attendance.

Personalised Solutions

Every customer is unique, which is why the **Brother Special Solutions Customisation (SSC)** enables Brother products to be modified depending on your requirements. We collaborate with you to design the best solution to meet your business challenges. **Brother Solutions Interface (BSI)**, a web-based service platform, also lets software developers easily create customised solutions.

Delivering Outstanding Performance and Peace of Mind

Advanced Paper Handling

As your business and its requirements grow, your colour laser printer will grow to meet those demands. Conveniently feed thicker or odd-sized paper from the multi-purpose tray for special print jobs. You can also expand your paper input in two ways: with the tower tray that gives you **up to 2,380 sheets* for your high volume print jobs**, or by adding optional paper trays that holds **up to 500 sheets each**.

Cutting the Cost of Colour Printing

We understand the budgetary pressures that come with managing business printing. Our ultra high-yield cartridges allow you to print up to **9,000 pages****, providing an extremely low mono and colour cost per page. Total cost of ownership is also reduced, with longer-life components and a robust build quality you can rely on. Plus, save instantly with **high yield inbox toners capable of printing up to 6,500 pages****.

Mobility & Flexibility

Experience true mobile integration by wirelessly printing from any device with Brother iPrint&Scan, Apple's AirPrint, Mopria and Google Cloud Print, including previewing your copies and faxes, and saving to Cloud.

Empower yourself with Brother Cloud Apps. This free suite of innovative applications allow you to create, edit and convert documents at selected Brother machines with an Internet connection.

Peace of Mind Guaranteed

When you purchase a Brother printer or multi-function centre and our genuine inks or toners, we'll support you every step of the way with our **FREE 3-year warranty commitment**. **YOU DO NOT NEED TO REGISTER YOUR PRODUCT**, our warranty is automatic when you purchase your Brother device. With Brother, you can have peace of mind that we are always "At Your Side".

To keep your Brother machine running in optimal condition we recommend using only Brother Genuine Consumables, this will ensure you automatically enjoy our exclusive 3-year warranty.
