

**How to change the file format on a
Olympus DS-3400, DS-5000 & DS-5000id**

Connect the recorder to the computer as per normal.

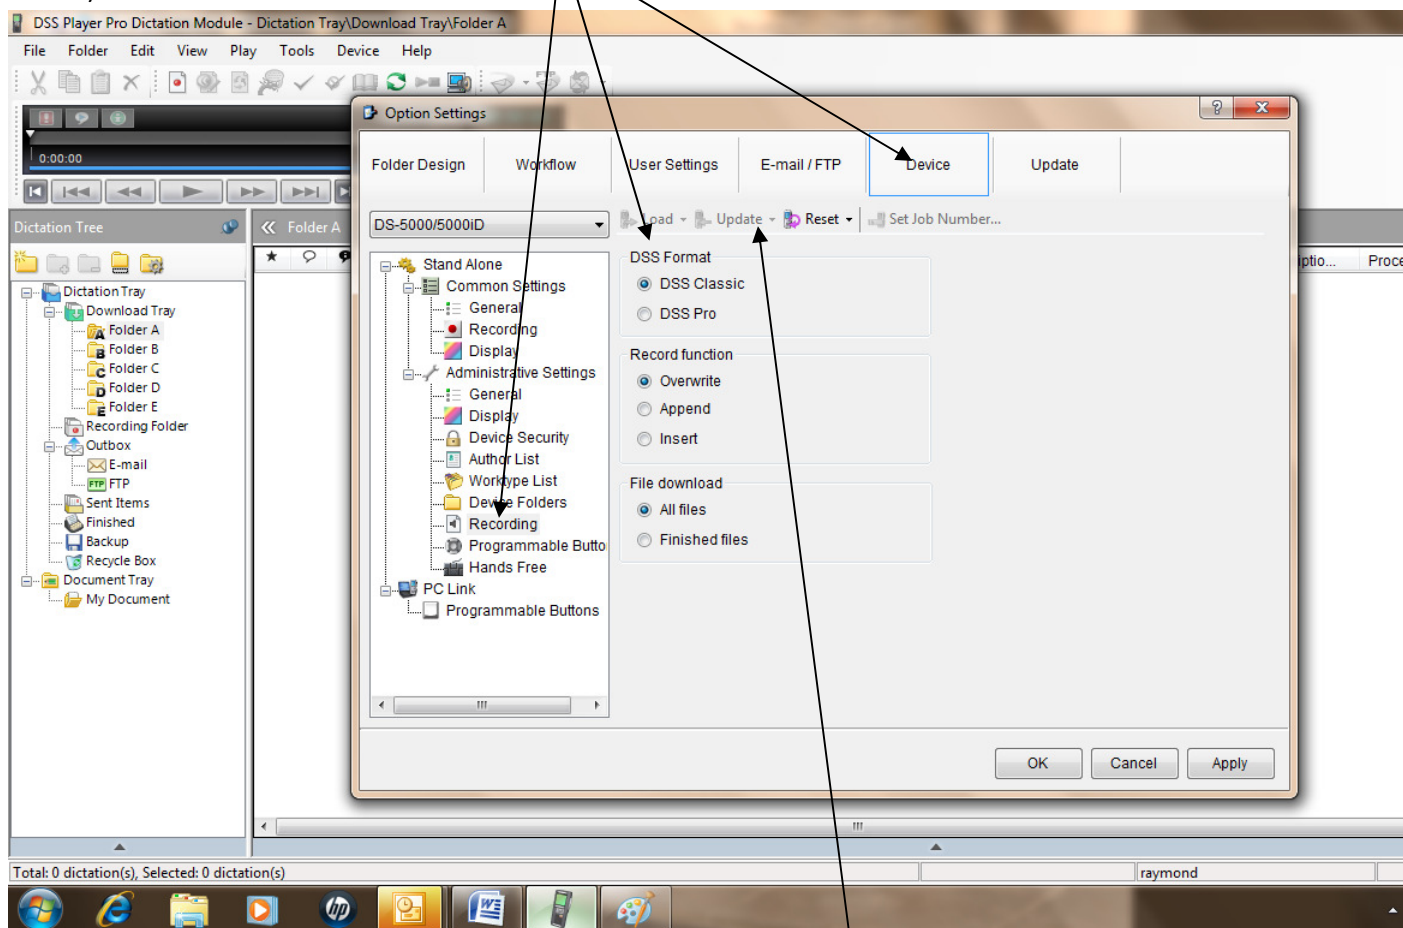

Open Dictation Module (Please note!!! – this can only be done from the Dictation Module)

Click “Tools” and select “Option”

Select the “Device” tab

Under “Administrative settings” select “Recording”

Select “DSS Classic” under DSS format. (On the right hand side of screen)

Click on the drop down arrow next to Update and select “this page only”

Click “OK”

You have now changed the file format

Click “OK” and disconnect recorder
